THIS FAIR IS ORGANIZED WITH THE AUDIT OF TOBB (THE UNION OF CHAMBERS AND COMMODITY EXCHANGES OF TURKEY) IN ACCORDANCE WITH THE LAW NO.5174

HOMETEX, brought the national and international actors of the home textile industry in Istanbul together, **which is the most prestigious fair among all around the world.**

11 Salons

200.000m²

5 Days

HOMETEX 2023, the largest meeting of the industry, hosting the world's leading companies in the home textile industry, was completed with the participation of hundreds of local and foreign companies with stands and more than 170,000 visitors.

While the heart of the industry beat at Istanbul Expo Center for 5 days, the number of business professionals attending the fair from abroad exceeded 80 percent compared to last year. HOMETEX, which managed to become the platform where fashion and trends are determined with the products exhibited, once again strengthened the power of the sector with the commercial connections made.

HOMETEX, organized by the umbrella organization of the sector, Turkish Home Textile Industrialists and Businessmen Association (TETSİAD), with the organization of KFA Fuarcılık A.Ş., a subsidiary of Bursa Chamber of Commerce and Industry (BTSO), brought together thousands of local and foreign companies. Nearly 850 companies participated in the fair, which was held in 11 halls and an area of approximately 200 thousand square meters, by opening stands. HOMETEX hosted more than 170,000 visitors, which is described as the most successful organization for the home textile industry to date by both exhibitors and visitors. The number of business professionals coming from abroad to HOMETEX increased by 80 percent compared to last year's organization.

While the fair, which was visited by thousands of qualified buyers from home and abroad, enabled strong business connections, the interest of foreign buyers who participated in the fair individually from

different countries, as well as the buyer delegation organizations, was closely followed up by national and international media.

TREND AREA

The concept of sustainability, which the world has focused on in recent years, is gradually developing and continues to raise awareness. Sustainability is no longer a trend but an obligation. The textile industry determines and develops its production and sales and marketing philosophies accordingly. **HOMETEX 24/25 Trends** brought together exhibitors and visitors at the fair with these analyses and observations.

HOMETEX Trends 24/25 has been compiled under 4 different themes that reflect different styles and tastes, emphasizing the ever-increasing importance of sustainability for the sector and synthesizing sustainability with habits, lifestyles and the current

state of the concept of home. It presented a holistic approach to the industry dynamics in the next 2 years with the titles Escapeland, Everything About Us, Bigger Than Life and Trace Of Time.

B2B MEETINGS

Foreign buyers met with Turkish companies!

The fair, where the Turkish home textile industry joined forces, was held in a total of **11 halls and an area of 200 thousand square meters.**

At the fair, where the theme of sustainability was at the forefront, potential buyers from many countries, especially **Italy, Spain, France, USA, England, Greece and Turkish Republics,** met with domestic companies at the cooperation table, thanks to the purchasing delegations.

SEMINARS

“HOMETEX dialogs”
hosted world-famous designers and
industry leaders.

HOMETEX
dialogs

Important names that determine the trends of the home textile industry also took part in HOMETEX. National and international important names came together with the sector and shared their experiences in seminars organized with different themes, while famous names made special trend presentations for the fair on the ‘HOMETEX DIALOGS’ stage.

“

FOREIGN BUYERS ARE 80% MORE COMPARED TO LAST YEAR

“There is more intense participation in the fair every year. Our companies in cities such as Istanbul, Bursa, Kahramanmaraş, Denizli, Adana, Ankara, Gaziantep, Izmir and Uşak, which are natural cluster cities in the home textile industry, showed great interest in the fair. This year, the number of international participants also increased significantly. Our international identity has been strengthened. The number of business professionals attending the fair from abroad exceeded 80 percent compared to last year. Our fair, which hosted more than 170,000 visitors for 5 days, will be held again next year at the Istanbul Expo Center between 21-25 May. I wholeheartedly believe that our fair, which is a brand in the sector, will continue to strengthen the exports of all our companies.”

İBRAHİM BURKAY

Chairman of the Board of Directors of Bursa Chamber of Commerce and Industry (BTSO)

“

IT GAVE WEIGHT TO THE EXPORTS OF THE SECTOR

“HOMETEX, the brand fair of our home textile industry, which has added dynamism to the country's economy with the added value it has produced for more than 30 years, was held on an area of 200 thousand square meters this year. Our HOMETEX fair has a great share in Turkey becoming one of the world's most important manufacturers of home textiles. We believe that we will contribute 20-25 percent to the home textile industry with the new business connections to be established at this year's fair. I would like to thank our supporting chambers, exporter associations, sector representatives and everyone who contributed to the organization of our fair with the organizational experience of our KFA Fair company under the leadership of TETSIAD. We are looking forward to meeting again next year under the umbrella of HOMETEX.”

HASAN HÜSEYİN BAYRAM

President of Turkish Home Textile Industrialists and Businessmen Association (TETSIAD)
